

Use Case Model:

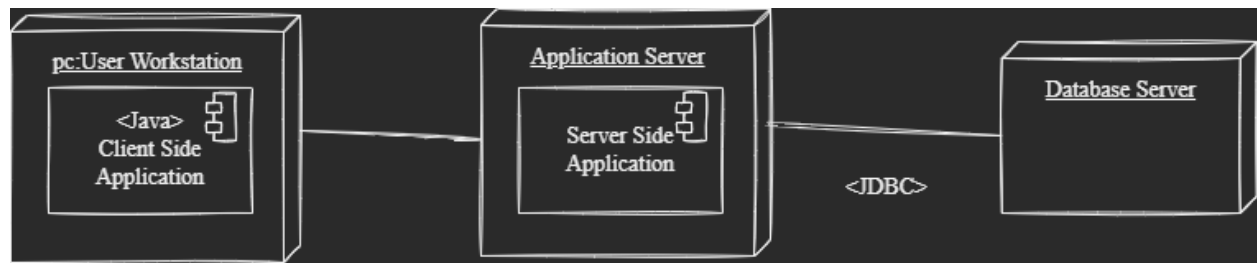

Iteration 1:

Context Diagram 1.1

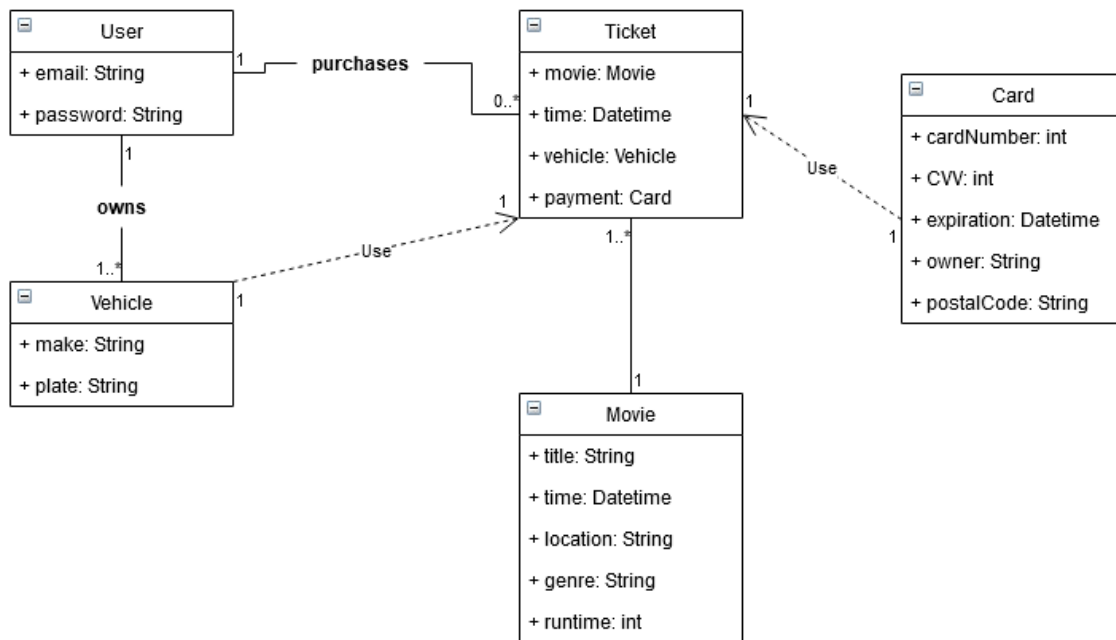

1.2 Module View Diagram

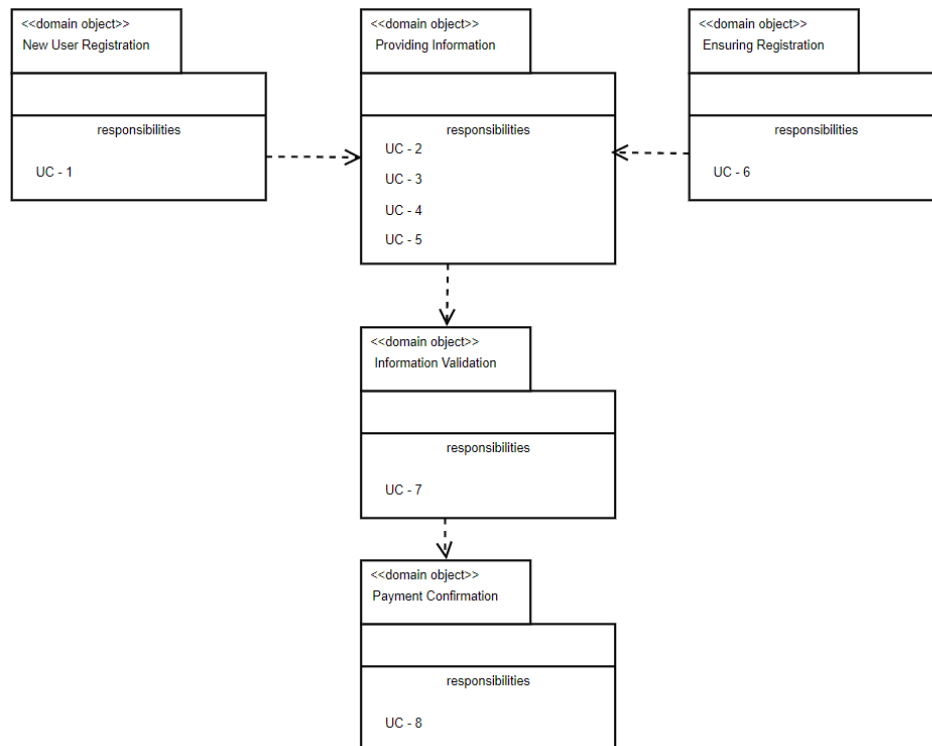

1.3 Initial Deployment Diagram for the drive-in theatre website system

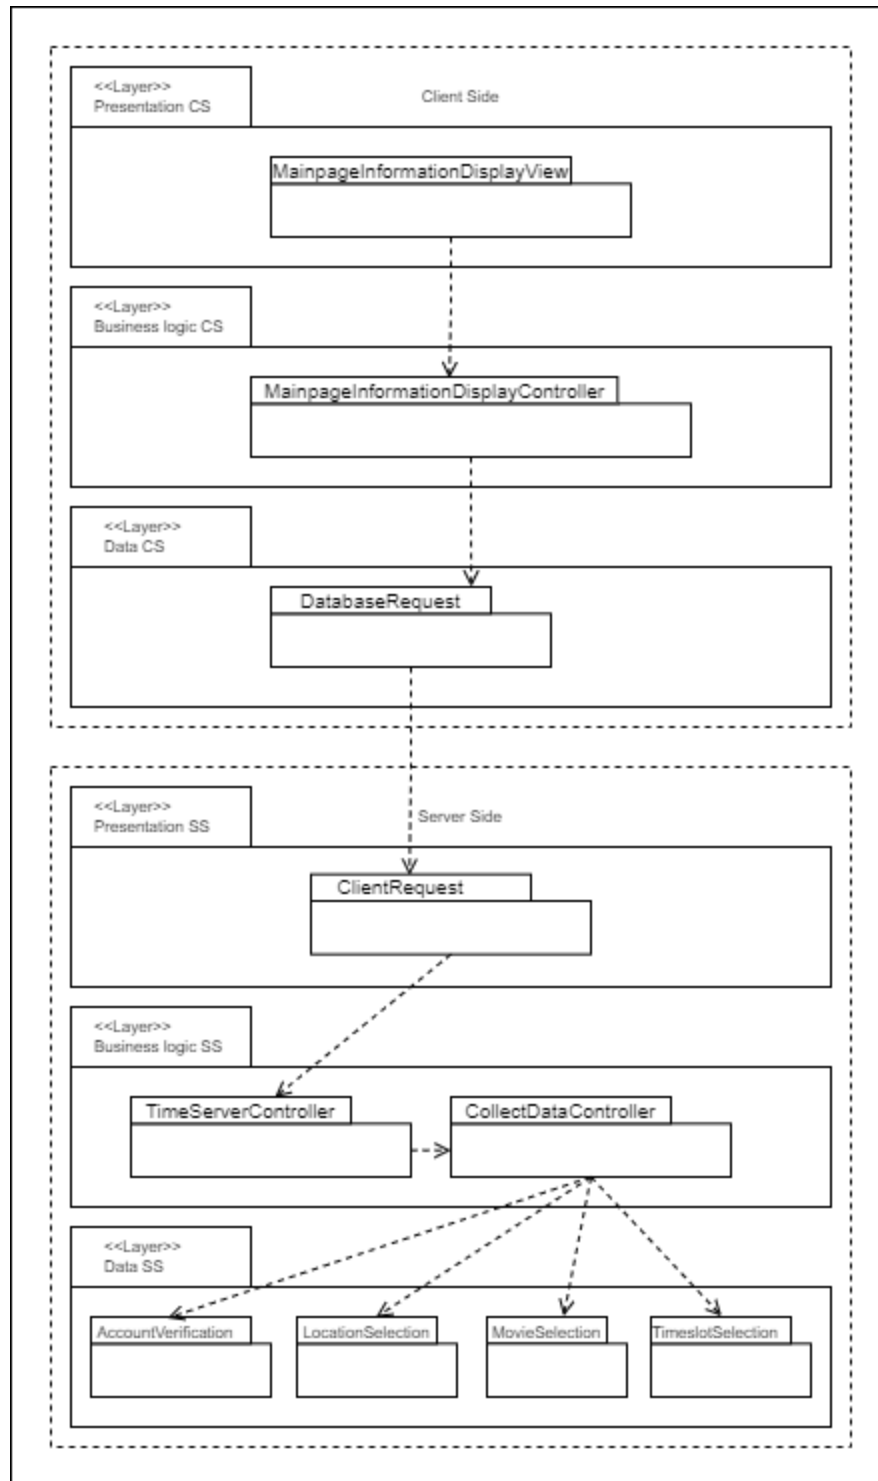

Iteration 2:

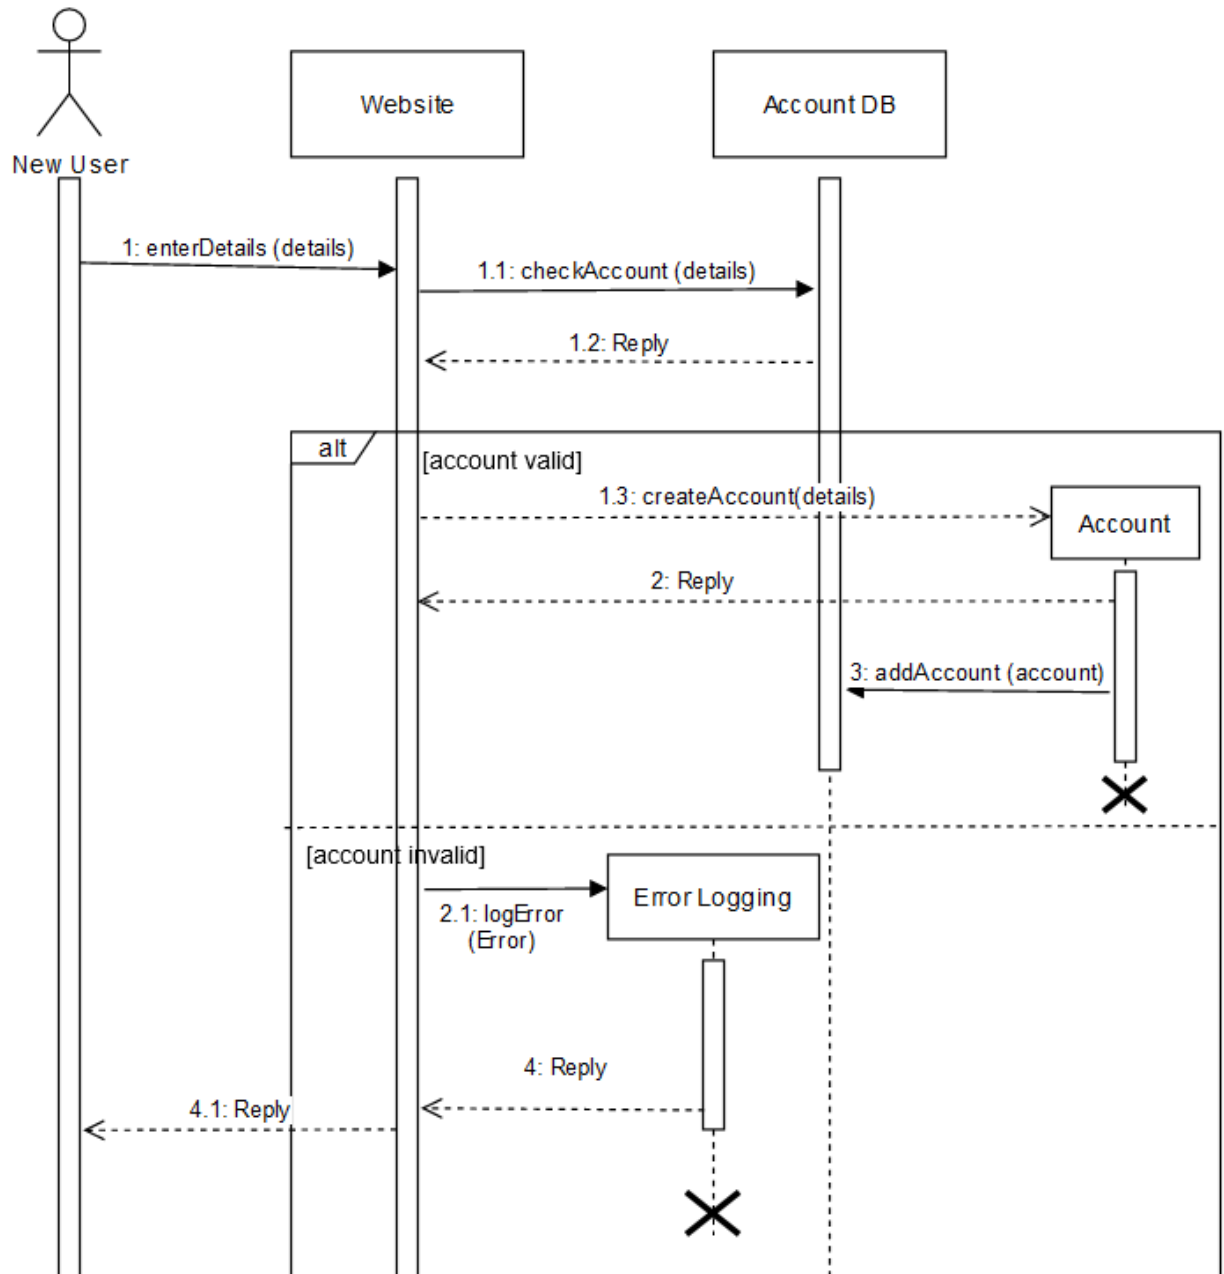

2.1 Initial Domain Model

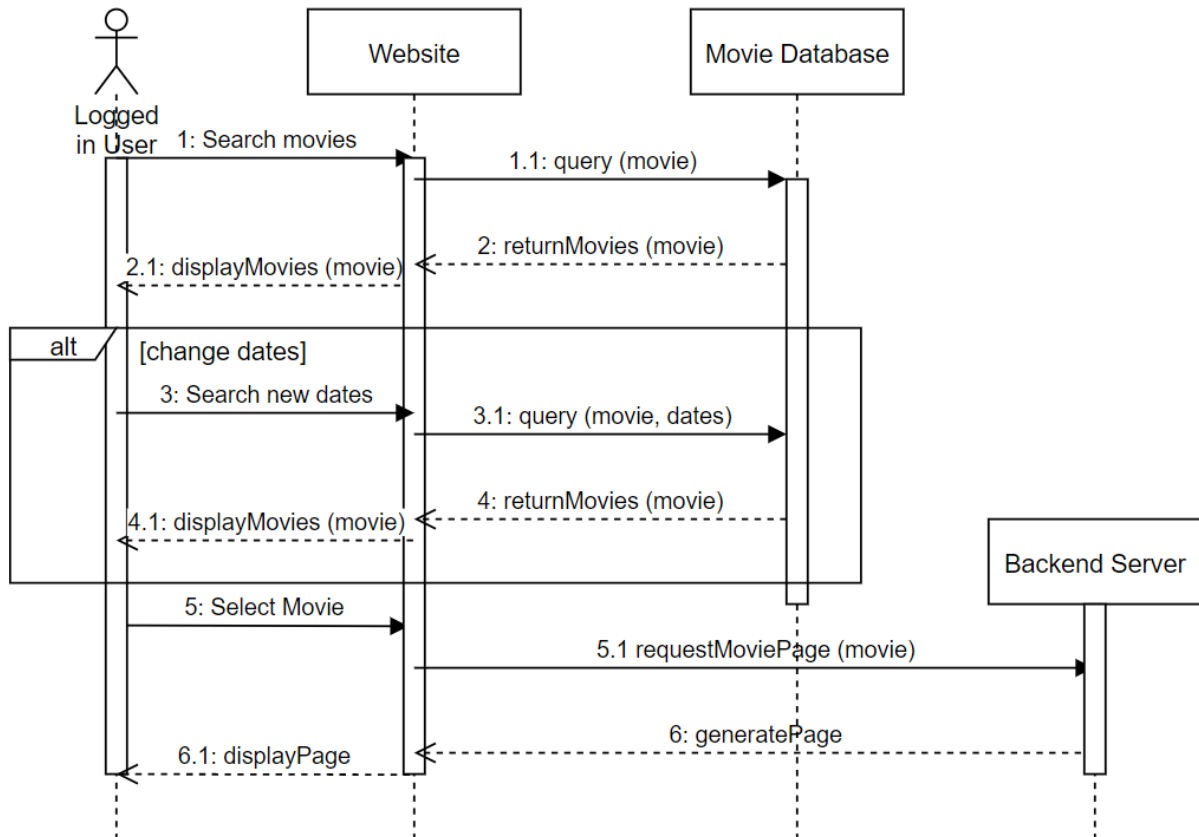

2.2 Domain Objects that are instantiated for the use cases

2.3 Modules that support the primary use cases

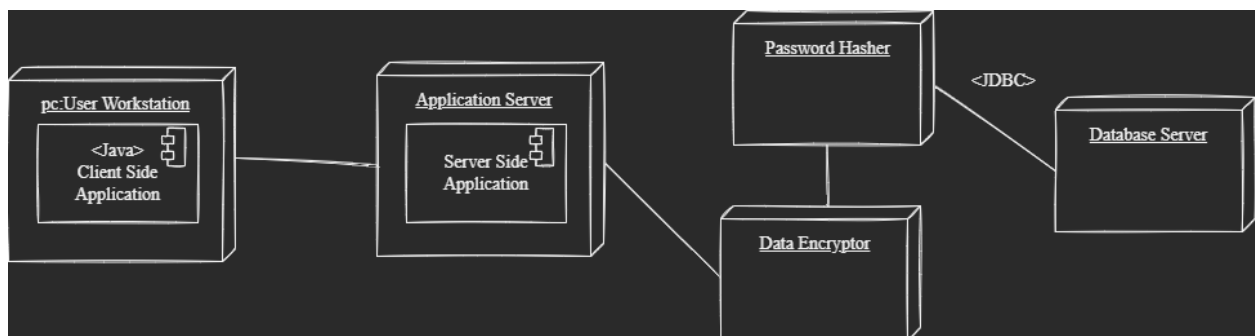

2.4 Sequence diagram for UC-1 (account creation)

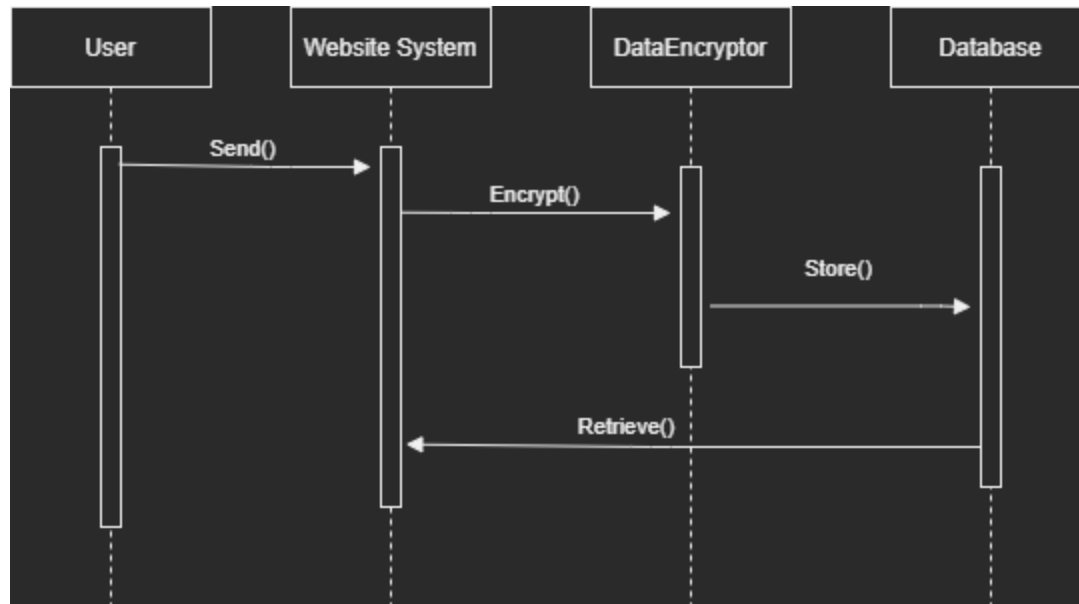

2.5 Sequence diagram for UC-3 (movie selection)

Iteration 3:

3.1 Deployment diagram that includes the introduction of password hashing and data encryption in the system

3.2 UML sequence diagram with data encryptor in the system
